### **This week's discussion**

#### **Timeline**

Testing to this point has indicated that the starting date for YET is firmly scheduled for July 22<sup>nd</sup>, beginning at 5:00 pm, and we expect it to complete by August 8<sup>th</sup> at 7:00 am. We had hoped to be able to shorten the timeframe but it will not be possible. We understand this has a direct bearing on some of you running Summer Schools, so be aware that the system will be offline for two weeks. SD Test will be available to use during that time.

The full test run of the YET process is still running, we are monitoring it hourly, round the clock, and will let you know when we have more results.

SD69 asked for an estimate on when we might have test results.

It looks like it will potentially be the first or second week of July; we will communicate the results as soon as we have them.

One thing to note: from what we are seeing in the code, there were very few changes or enhancements made. While this means the YET process hasn't been shortened, it also means it should work fairly closely to how it did last year.

#### **Health Checks**

Health Checks will continue to run weekly right up to July 22<sup>nd</sup>. Some of the things being sent out will stop YET if they are not fixed, so in order to keep YET from taking any longer than necessary, please take care of anything sent in a Health Check promptly.
